

# What do we have to offer?

Sharing Traditions

At St. Andrew's Regional High School, students receive first-class instruction and educational opportunities. Teens leave as well-rounded adults who are accepted into post-secondary institutions across Canada and abroad. St. Andrew's offers:

- **Smaller Class Sizes:** the average class is 25 with no more than 30 maximum.
- **Extra Curricular Sports:** Included in the tuition fees are; rowing, swimming, basketball, volley-ball, golf and soccer.
- **Fine Arts Program:** Our highly acclaimed fine arts program includes theater, production, film, visual arts, band, and choir.

Our International program welcomes any students who would like to come and experience Canada on a short-term or long-term basis. The only requirement is that the student should be in good standing at their current school and have sufficient English language skills to be successful in an English Immersion curriculum.

School Chaplain,  
Father Paul  
Szczur S.D.S.,

## Short Term Cultural Experience

The short term program is offered from mid-September to mid-June for durations of one to five months. It is designed to give the student an English Immersion experience. Students can take a break from their regular classes in their home countries, perhaps during summer or winter vacation. Courses include ESL instruction and support (if required) and elective courses that include full interaction with Canadian students. Students can participate in this program without a study permit, but need a valid passport.

## Full Year Academic Program

This is a year long program where students are fully integrated with Canadian students in core subjects as well as electives. ESL class or support is still offered, however the student's English language proficiency should be at a sufficient level for the appropriate grade. Students can tailor their studies to suit their individual interests and career goals. In addition to required courses, students can choose from a wide range of elective subjects in fine arts, accounting and applied skills. Classes are based on the BC provincial government curriculum and include the core subjects of English, mathematics, social studies (history), science and physical education.

A full range of electives

## BC Graduation Program

This 1 to 3 year program is an opportunity for qualifying students to obtain a BC government Graduation Certificate. While achieving full B.C. Ministry of Education requirements, students can take a variety of electives that allow the individual to stretch their creative abilities and God-given talent. The staff at St. Andrew's deepens the learning experience of their students by inspiring values and a high level of achievement. Whether continuing on to college or university in Canada or abroad, St. Andrew's graduates benefit from a consistent, first class academic program.

Graduation is a celebration.

## International Activities

At St. Andrew's, every international student is paired up with a Canadian student and becomes their conversation partner. International Students and conversation partners participate in monthly activities together. Whether it's ice skating or roasting marshmallows over an open fire, there is an activity that is sure to please everyone.

Friendships are formed and cherished.
